OUR PHILOSOPHY

Karachi's resilience shines through its social organisations, who through COVID, floods and economic downturn continue to address critical societal issues despite donor fatigue causing a steep decline in the giving that sustains these organisations. The KHI Awards not only celebrate the enduring spirit of compassion of these organisations; they are also a call to open hearts a little wider and extend hands a little further at a time when generosity and empathy need to take the forefront.

Kyun ke mushqel waqat mein hi tou saath dena hota hai.

MESSAGE FROM CEO, K-ELECTRIC

The KE KHI Awards embody our commitment to transformative impact and recognise those dedicated to the resilience of Karachi and its inhabitants. By partnering with service-driven entities, we aim to contribute meaningfully to the United Nations Sustainable Development Goal. Collective efforts are key to building resilience, and through the KE KHI Awards, we strive to enhance the impact of those who share our vision. By embracing innovation and focusing on community upliftment, we are not only addressing current challenges but also paving the way for a brighter, more sustainable future for Karachi.
